

Delivery Group

Ensuring delivery of individual actions within the CNSRP Programme.

The Group will identify and agree key economic opportunities, and agree prioritisation of activities to support the delivery of these opportunities, as well as determining when a project becomes part of the CNSRP Programme, and when it is no longer part of the CNSRP Programme. The Group will also monitor the mitigation of risks associated with delivering the CNSRP Programme. The Group will meet monthly. Whilst named positions are listed for member organisations, if the individual member is not able to attend a meeting it is the responsibility of the member to identify a suitable substitute who can represent the organisation's interests and is able to discharge the organisation's remit on the Group.
